GIV

GIV-Estate™

Vertical Industry Solution using HxGN-EAM™

The Innovative Estate Management Solution

GIV-ESTATE

Provides the Real Estate operations organization with a wholistic platform to manage all operation, logistics and maintenance processes.

Award Winning Technology

GIV-ESTATE is based on the world leading 'HxGN EAM by Hexagon' solution and technology enabling the highest level of flexibility and adaptability to local standards and needs.

Setting a new Standard of Excellence

GIV-ESTATE enables you to set and maintain a high level of service to your customers by keeping all the aspects of real estate operations monitored and managed on a single smart platform. Thus, enabling you:

- A comprehensive end to end managerial capabilities of your tenants, asset occupancy and usage, logistic level and planning, maintenance and rehabilitation works etc.
- Constant synchronization of all employees, managers, stake holders and customers, in a timely manner.
- Comprehensive suppliers' management.

Benefits

- Improve your operation, maintenance, logistics and overall efficiency by having The "Real World" inside the software – all operation, maintenance, logistic and purchasing processes and dependencies are combined and managed on the same platform.
- Mobile application allows to work from the most remote location in the field, even without any mobile connection such as underground parking garages or basements.
- Incorporating: CAD, GIS and BIM to visualize the complex assets and infrastructure of the real estate organization.
- High connectivity ability to easily integrate with all SCADA / Fault Management systems to receive and manage alerts, events, energy consumption and monitoring etc.
- Comprehensive purchasing management, including supplier management, RFQ, Requisitions, Purchase Orders, Invoicing, contract management and more.
- Comprehensive Asset and logistics management, including inventory, warranty management, occupancy, stock levels, expiration dates, resources planning, repairs & rehabilitation, warehouse management and more.
- A wide range of alerts and BI reports allow you to always stay ahead of your organizational challenges. Be pro-active and not re-active.
